 The cover which adjusts to serve as a paten, and
 The safety tab which adjusts to serve as a handle.

New International Sterling Pyx with self-adjusting paten

Safer • Easier to Use • Easier to Purify • More Durable

This new Pyx opens and adjusts for ready use in one safe, easy motion. Just turn back the safety tab and use it as a handle . . . as you do, the cover automatically raises and stops in just the right position to serve as a paten.

NOTE THESE SPECIAL FEATURES:

Safe — won't open until you raise the safety tab.

Smoothly polished gold lined interior, has no small crevices and is easy to purify.

Heavy weight sterling used throughout and specially heavy stock used in the hinge for greater durability.

Domed bottom of host compartment offers easier access to remaining hosts.

Compact — only $1\frac{1}{8}$ " in diameter and $1\frac{1}{2}$ " in depth.

The safety tab is decorated with modern symbolism by a leading designer.
